Dr Brenda Heyworth

Ever watched a child’s tantrum and wondered whether they’re part child/part monkey? Even teenagers still have a wild streak that they set loose when things aren’t going their way. Whether it’s arguing, insults, yelling or hitting, Dr Brenda Heyworth says, ‘THAT’S JUNGLE!’

Dr Heyworth is a family and child psychiatrist who has developed a practical approach to managing bad behaviour in children and teens. She brings a humorous approach to a serious issue and her book, workshops and presentations have struck a chord with parents and teachers alike. “It’s a Jungle – A Parent’s Guide to Emotions and Behaviour”, is a light hearted approach that will have you smiling to yourself as you start to recognise the ‘jungle’ behaviour in your children and even in adults. It turns out we all have that instinct that says, “If in doubt, come out fighting!” www.itsajungle.com
